INTRODUCTION

VISION STATEMENT

The Environmental Health and Sanitation Department (EHSD) exist to ensure a clean, safe, pleasant and healthy environment in all human settlements.

MISSION STATEMENT

- a) To formulate appropriate policies to accelerate the implementation of decentralization of the Environmental Health and Sanitation Unit.
- b) To facilitate human development and sustain the orderly and healthy growth of rural and urban settlement.
- c) To improve upon the human resource and institutional capacities for all levels of the Environmental Health and Sanitation Department.
- d) To monitor and evaluate the effectiveness of the Municipal in Sanitation Management.

NO.	BASELINE 2020	OBJECTIVES/TARGET 2021	LEVEL OF ACHIEVEMENT
1	Domiciliary Inspection was carried out in 150 houses to see to abatement of nuisances.	To inspect 250 houses to ensure good environmental sanitation in various homes.	205 houses were inspected given 82%
2	Unregistered Burials at the various cemeteries.	To control and register all burials at AKROPONG	Apart from few churches, most burials are now being registered.

ADMINISTRATION

Human Resource Management Analysis

➤ Total number of staff:	11
➤ Gender	
Female:	4
Male:	7
➤ Municipal Population:	104,262
➤ Auxiliary Staff:	3

Logistics:

The department has the following logistics to boast of

<u>S/no</u>	<u>Items</u>	<u>Quantity</u>
1.		

WAST MANAGEMENT

Solid Waste

QTR	NO. COMM	POPULATION	DAILY WASTE GENERATION	DAILY WASTE COLLECTION	NO. COMMUNAL CONTAINER SITE	NO. COMMUNAL CONTAINER	NO. REFUSE TRUCKS	DOOR TO DOOR COLLECTION	AVAILABILITY OF DISPOSAL SITE

2 nd	2	-	2	-	-	-	2
3 rd	1	-	-	1	-	-	1
4 th	2	-	2	-	-	-	2

CHALLENGES

- Lack of Logistics for officers to work effectively.
- Less seriousness attached to environmental sanitation at the Municipal level unless it becomes a public outcry.
- Lack of capacity building for officers.

WAYS FORWARD

- Provision of logistics for officers such as motor bikes and other necessary materials to carry out their best.
- Organization of capacity building training for officers at least once a year to build their confidence and add to their knowledge the ideal way of current public health practice.

CONCLUSION

Environmental sanitation being a way of life, it must come from within the people, so let use the health education and health promotion approach in service delivery.

Sanitation is nourished by knowledge and grow as an obligation, so let teach others what we know about sanitation
